

# Test certificate

This certifies that the 170° opening concealed hinges, Model No 820D, manufactured by Samsung Precision Industry Company Limited and tested at the Furniture Industry Research Association, successfully satisfied the applicable door strength test requirements of BS 6222: (1992): Part 2 to test level G.

Report reference: 217C/94/APG/TAB refers.

The 170° opening concealed hinges, Model No 820D, manufacture by Samsung Precision Industry Company Limited is therefore considered structurally suitable for general kitchen use when used in conjunction with a door, carcass and fixings commensurate with test unit.
